Education

North Carolina Agricultural and Technical State University | *Information Technology*

GPA: 3.49/4.00
May 2026

Relevant Coursework: Linux Systems, Computer Database, Computer Networking, Computer Applications, Python, Javascript, SQL, HTML/CSS, Program Management, Java, PHP, Computer Networking II, Senior Capstone II, Database Security

Achievements: Lean Six Sigma Green Belt Certification by Quality America, Inc., Chancellors List 3x, Dean's List, Alpha Phi Alpha Fraternity, Inc., Student Government Association Elections Committee Co-Chair, Joint Greek Council Sergeant at Arms, Charles McGee Scholar, TMCF Alpha South Scholarship recipient, National Society of Black Engineers (NSBE), Aggie Peer Mentor Facilitator, First student to be selected from NC A&T for Vanguard Co-op

Professional Experience

Vanguard | *Application Engineer*

September 2025 - Jan 2026

- Designed and developed a full Figma wireframe and implemented a completely new user interface, significantly enhancing usability and visual consistency across internal tools while using AWS services to receive responses from an Artificial Intelligent chatbot.
- Developed user-facing components using the Angular framework and TypeScript to improve usability, enhance customer experience, and support scalable front-end functionality.

Bank of America | *Software Engineering Intern*

June 2025 - Aug 2025

- Developed a dynamic React.js interface with AG Grid features such as infinite scrolling, Excel/PDF export, and customizable layouts, enabling over 10 million Merrill Wealth users to analyze portfolios and make informed investment decisions more efficiently.
- Designed and implemented a responder API using Axios to fetch and populate grid data from a legacy UI, enabling seamless integration and real-time data updates.
- Utilized Postman to design and execute test cases for responder APIs, validating endpoints, ensuring data accuracy, and streamlining debugging during integration.

Medtronic | *Project Management Associate*

September 2024 - May 2025

- Collaborated with cross-functional stakeholders to develop detailed project charters and status reports, aligning scope, timelines, and deliverables to drive successful project execution and stakeholder approval.
- Analyzed historical remediation data to identify gaps, coordinate resolution strategies, and close outstanding stakeholder-assigned tasks, improving overall project compliance and audit readiness by leveraging Power BI to store, visualize, and track remediation data trends.

Medtronic | *Software Engineering Intern*

June 2024 - Aug 2024

- Developed a unified customer registration application within the Customer Identity and Access Management (CIAM) team to streamline account creation across all Medtronic digital platforms that was used globally by over 5 millions users.
- Programmed front-end features using JavaScript and structured data using JSON files to manage user input, authentication flow, and API integrations.

Leadership and Involvement

Student Government Association Elections Committee | *Co-Chair*

Feb 2025 - June 2025

- Coordinated and executed campus-wide election events for over 500 candidates running for various student government positions at North Carolina A&T State University.
- Developed and distributed a comprehensive election timeline outlining key deadlines, campaign regulations, and event schedules to ensure fair and organized candidate participation.
- Oversaw compliance with election policies by monitoring campaign activities, addressing candidate concerns, and ensuring transparency throughout the voting process.

North Carolina A&T Residential Assistant | *Employee*

June 2023 - May 2024

- Organized and led community-building events to promote student engagement, inclusion, and well-being within campus housing.
- Enforced residential safety protocols and responded to incidents to ensure a secure and supportive living environment for all residents.
- Provided peer mentorship and served as a resource for 60+ residents, offering guidance on academic, social, and personal challenges to help foster student success and well-being.
